# Strategic Aspects

## Mission

To offer integrated, innovative and sustainable solutions in the sectors of mobility, infrastructure, logistics, international trade and travel facilitation, boosting the economic development of Mozambique and the region. We operate with operational excellence, ethics and social impact, connecting businesses with efficiency and purpose.

## Vision

To be a leading business platform in Mozambique and Southern Africa, recognized for transforming strategic sectors with intelligent, integrated and responsible solutions, contributing to a more prosperous, resilient and sustainable future.

## Values

- ✓ Commitment to the Customer
- ✓ Efficiency and Innovation
- ✓ Trust and Integrity
- ✓ Operational Excellence
- ✓ Sustainability and Social Impact
- ✓ Collaboration and Synergy

## Brief Introduction/History

The history of FC Holdings is a journey of strategic vision, progressive growth, and a commitment to Mozambique's economic development. The group founded on the conviction that excellence in essential services such as logistics, mobility, civil construction, international trade, and tourism is the foundation for a more efficient, competitive, and sustainable country.

The journey began on July 1, 2007, with the creation of FC Despachante Aduaneiro, focused on facilitating import and export operations with professionalism, regulatory expertise, and tailored solutions for both national and international companies.

In 2010, expanding its vision for service integration, the company introduced corporate vehicle rentals, responding to the growing demand for reliable business mobility.

This movement was consolidated in 2012 with the founding of A&A Trucks – Construction and Rent-a-Car, marking the group's entry into the civil construction sector and structuring a more integrated approach between mobility and infrastructure.

With the intensive and structured operation of Rent-a-Car in 2014, FC Holdings strengthened its presence in the national market, offering flexible contracts, logistics coverage, and high-quality fleet maintenance services.

In 2020, the ambition for operational excellence gained new momentum with the creation of F&F Logistics, a company specialized in integrated transport and logistics, bringing modern and trackable solutions to the supply chain in Mozambique and the region.

The year 2025 marks another visionary milestone with the launch of TravelFast, an initiative that expands the group's presence in the corporate mobility and tourism sector, connecting people, businesses, and destinations with speed and innovation.

Each stage of this journey represents more than just business growth: it is the building of a national ecosystem that connects strategic sectors in a synergistic, solid, and results-oriented way. FC Holdings has thus become a leading Mozambican business platform, ready to face future challenges, attract strategic investments, and turn opportunities into lasting economic and social impact.

## Installed, Technical and Logistical Capacities

FC Holdings has a robust and versatile installed capacity, supported by the assets and skills of its five integrated companies. The group has its own fleet of light vehicles, trucks and heavy machinery, as well as modern equipment for civil construction and large infrastructures, capable of responding efficiently to projects of high technical complexity.

It also has integrated digital platforms for fleet management, logistics operations, contracts and customer service, ensuring real-time control, traceability and agility in decision-making.

Its multidisciplinary technical team, with consolidated experience in the areas of engineering, logistics, international trade and corporate travel facilitation, is distributed across several provinces in the country, ensuring a strategic presence and national response capacity.

This set of resources gives FC Holdings high technical, operational and institutional competitiveness, making it capable of responding with excellence to the structural challenges of public and private clients, both nationally and internationally.

## Certifications and Recognitions

FC Holdings is deeply committed to adopting the highest standards of quality, sustainability and operational safety, essential foundations for strengthening competitiveness and institutional credibility.

With a focus on excellence, the group guides its processes and services in accordance with international benchmarks, progressively aligning itself with the best market practices, such as those recommended by ISO 9001, 14001 and 45001 standards.

This commitment reflects the ambition to position itself as a reliable, efficient partner prepared to operate in demanding regulatory contexts, both in Mozambique and in the regional market.

# Innovation and Digitalization Strategy

- ✓ Digitization of administrative and operational processes
- ✓ Real-time logistics tracking of fleets and cargo
- ✓ Integration of contract management and customer relationship systems
- ✓ Automation of customs and document procedures
- ✓ Establishing partnerships with technology companies to develop customized solutions

# Partnership and Financing Models

FC Holdings adopts a collaborative and flexible partnership model, open to the establishment of joint ventures, concessions, public-private partnerships (PPP) and impact financing, especially in the areas of infrastructure, mobility, digital platforms and fleet expansion):

- ✓ Establishing partnerships with investors, suppliers and financiers
- ✓ Collaboration with public, private and multilateral entities
- ✓ Business model based on intersectoral synergies
- ✓ Strategic presence in key sectors of the economy
- ✓ Installed capacity prepared to scale operations throughout the territory
- ✓ Transparent, professional and results-oriented management
- ✓ Strong commitment to ESG

# Sustainability and ESG

Sustainability is an integral part of FC Holdings' business model. We operate in an ethical, inclusive and environmentally responsible manner, aligning our operations with the Sustainable Development Goals (SDGs).

## Environmental

- ✓ Reducing waste
- ✓ Rational use of natural resources
- ✓ Clean technologies

## Social

- ✓ Training of local workforce
- ✓ Support for community and educational projects
- ✓ Promoting diversity and inclusion
- ✓ Affordable pricing

## Governance

- ✓ Well-defined integrity and ethical conduct policies
- ✓ Strict compliance with national legislation and sectoral regulations
- ✓ Transparent, participatory management geared towards institutional inclusion

# Socioeconomic Impact

- ✓ Creation of qualified jobs
- ✓ Support for entrepreneurship and local suppliers
- ✓ Contribution to national logistics chains

## Geographic Coverage Map

- ❖ Presence in all provinces of Mozambique
- ❖ National presence with potential for international expansion

## Expansion Plan/Strategic Vision for the Future

FC Holdings is planning a bold and sustainable growth trajectory for a 10-year horizon, focusing on consolidating its position in the national market and regional expansion. The company's strategic vision includes:

- ❖ Geographic expansion into new areas of operation, both nationally and internationally
- ❖ Expanding the digitalization of services and positioning as an international logistics player
- ❖ Consolidating strategic partnerships
- ❖ Sustainability and innovation as transversal pillars of growth
- ❖ Expansion into at least two SADC countries

## Quality and Customer Service Policy

- ❖ Internal control and audit processes
- ❖ Multichannel and personalized service
- ❖ Performance and satisfaction indicators
- ❖ Flexibility and active listening in the solutions offered
- ❖ Contractual flexibility and adaptation to the client's profile

## Code of Conduct and Ethics/Compliance

FC Holdings has an internal code of conduct that regulates relations with customers, suppliers, employees and institutional partners. This code is aligned with international best practices in corporate governance and is based on the following pillars:

- ❖ Commitment to ethics, transparency and the promotion of diversity
- ❖ Robust internal policies for management and organizational control
- ❖ Corporate culture based on mutual trust, responsibility and integrity
- ❖ Regular training in professional ethics and compliance, with a view to preventing risks and strengthening legal and reputational compliance

## Fiscal Responsibility and National Contribution

- ❖ Compliance with tax, fiscal and social security laws and regulations
- ❖ Partnerships with public entities in strategic services
- ❖ Technical support for national and international capacity-building initiatives

**Félix Chandamela**  
(CEO FC Holdings)

*"FC Holdings was established on the firm belief that Mozambique's progress is intrinsically linked to the intelligent integration of strategic sectors such as mobility, logistics, civil construction, international trade, and tourism. Originating in 2007 as a specialized initiative in customs brokerage, the company has since evolved into a robust and dynamic holding, delivering comprehensive, high-quality solutions that are both efficient and aligned with national and regional development priorities.*

*Each company that joins our group represents a firm step in the construction of a business ecosystem that generates real impact, creating qualified jobs, developing resilient infrastructures, promoting fair trade and facilitating the movement of people and goods throughout the country.*

*Guided by innovation, ethics and a commitment to sustainable development, we want to continue expanding with purpose. We are ready to collaborate with governments, investors and strategic partners who share our vision: to transform challenges into opportunities and make Mozambique a business reference hub in Southern Africa.*

*We invite everyone to join us on this journey of growth, integration and lasting positive impact."*
